

# ORIENTATION FOR NEW GROUPS

## *Leader's guide:* SG2-3

Lecture time: 36 min.

Discussion time: approx. 30 min.

**This is a 2 meeting event – should it be under workshops?**

### **Leader's Oral Opening Comments**

- Do the following as a preliminary demonstration for your group of Trainers or Coaches: Go around and have people share their names and how they came to the Lord. Share how the Lord has molded their interests towards this type of ministry.
- Personally share the present responsibilities and goals of this Session or your present stage of NLC ministry. Use material, relevant to new groups, from your experience.

### **Leader's Oral Closing Comments**

- Remembering that NLC's goal is not education but discipling and starting new churches. Ask your coaches to explain the difference and how they are putting that difference in practice.

### **Discussion instructions**

- Split your team into small groups of not more than 5 for these in-depth discussions.

### **Prayer instructions:**

- Lead a large group prayer time using the lecture points. The men can be led to either all pray silently per item mentioned by you, or you can ask one person to lead the group in an oral prayer following your announcement of each of the topics.

### **Practical assignments**

- Verify if your men both understand and are able to handle the assignments. If not, explain them or do them together at this meeting.
