

SOLVING STUDENT PARTICIPATION PROBLEMS

Leader's guide: SG13-3

Lecture time: 38 min.

Discussion time: approx. 30 min.

Lecture handling instructions

- This lecture requires follow up during your next Seminar with a time of praise and notes of victory.

Leader's Oral Opening Comments

- Problems are God-given **opportunities**. The devil is destructive, mean, critical, attacking, bringing problems, division. Our job is to bring healing, victory and success into church leader's lives, and consequently into their churches. Today we want to find one God-given solution for each difficulty mentioned in this lecture.

Leader's Oral Closing Comments

- Who here today has been helped through this lecture?
- Who has discovered/heard a "God" reply to the cry of his own heart?
- Who has found new hope for his group?
- Who has encountered new motivation and enthusiasm for his ministry of growing leaders for God?

Discussion instructions

Prayer instructions

- Have each participant name the weakest student in his group (by name or pseudonym) and his weakness. Then invite another attendee to pray for that student. If the group is small this can be done together; if large break up into groups of 6-8 each.
- Your next Seminar should be marked with a time of praise led by you based upon the sheets of problems turned into God-given opportunities. As you read parts of these lists, ask for testimonies. Let the MEN enter into each item and give praise for it.

Pass-out material instructions

- Each attendee needs to take home an extra copy of the outline and discussion questions so make copies accordingly.

Practical assignments

- Provide each attendee with an extra copy of the lecture outline and discussion questions. Then at home each is to write a God-given opportunity for each difficulty listed. Their list is to be returned in to you at the next Meeting.
