

GUIDELINES FOR DISCUSSION LEADERS

Leader's Guide: SG16-3

Lecture time: 56 min.

Discussion time: approx. 30 min.

Lecture handling instructions

- Be sure to include a demonstration of the 4 new discussion varieties in your Seminar.
- Use these methods with other lectures also during all your meetings .
- Lecture SG16 is specifically geared to **experienced** Small Group Leaders. If wives need a break this is a good time for them to engage in another activity.

Leader's Oral Opening Comments

- Open with 1 of the 4 new discussion methods.

Leader's Oral Closing Comments

- Close with 1 of the 4 new discussion methods.

Discussion instructions

- Should your men be proficient in some of this material and have experience, you may wish to use only part of the questions and use the extra time to model new varieties of discussion.

Prayer instructions

- From the Lecture outline have each participant choose and underline one point they struggle with and one point they excel in. Then have them bring these two items to the Lord in prayer, praise and thanksgiving.

Pass-out material instructions

- Provide each student with the lecture outline for prayer purposes and home review.

Practical assignments

- During your next several lesson discussion sessions apply each of the 4 new discussion varieties — 1)'*Neighbor Nudging*', 2)'*Circle Response*', 3)'*Role Playing*', and 4)'*Buzz Groups*'. Of course they won't be perfect, that's not the point. The point is to broaden your discussion method and spice up your lesson with new fresh elements.
