

PUBLIC RELATIONS FOR YOUR TRAINING MINISTRY

Leader's guide: LP3-3

Lecture time: 40 min.

Discussion time: approx. 35 min.

Lecture handling instructions

- It is through public relations that NLC study materials can be extended and used in various ways by students. The Christian public as a whole needs to be convinced that raising up preachers, raising up deacons and raising up future church leaders is an exciting and priority task of the local church. Church members should be encouraging students in their studies and be excited when these students share what they learned from the pulpit. This lecture should help your team to develop this focus.

Leader's Oral Opening Comments

- Quality and Repetition. Quality and Repetition. Quality and Repetition. Quality and Repetition. Without that your mentoring ministry will spiral to its demise. **Quality** communications and **frequent** communications is what keeps your ministry in the mind and the prayers of your church members.

Leader's Oral Closing Comments

- Let me hear some improvements you would recommend to us. We want to help each other. Now let me ask how much time will it take? — *pause for replies* — How much money will it take? — *pause for replies* — Who will do it? *Pause for replies* — Yes, my brothers, it takes faith — without faith it is impossible to please God. Without faith no improvements, no money, no blessings. I am going to do it. I am going to shout "YES". Who is with me? Let us shout "YES" together!!!

Prayer instructions

- "God you are quality — your creation is quality — your salvation is quality — I am quality — Thank you, praise your holy perfect name, I adore you!"

Practical assignments

- At the next meeting follow-up with each participant on the changes he is implementing.
