

INTERACTING WITH FAMILY, RELATIVES AND FRIENDS OF STUDENTS

Leader's guide: LP9-3

Lecture time: 38 min.

Discussion time: approx. 35 min.

Lecture handling instructions

- After the small group discussion time have each participant make a handwritten list of 12 practical pointers. The men are now into the spirit of things and the material is still fresh. Once they have this they can follow-up at home with 3 items a week for 4 weeks.

Leader's Oral Opening Comments

- Fifty Practical Pointers — Wow! That is one a week, if we do it. It would revolutionize our lives and ministry. Let us listen — let us pay attention, and let us choose what fits our needs.

Leader's Oral Closing Comments

- God's purpose in our lives is to make other people successful. Well here is success at your doorstep. I don't know about others, but I know that you can be successful. May God bless you!

Prayer instructions

- In a large group have each participant read one of the 50 items out loud and then pray about that item. If the group is too large have the brothers do it orally — out loud — simultaneously like parts of a choir. (It will be reminiscent of the 'waterfall' sound before the throne in Revelation.)

Pass-out material instructions

- To make the handwritten list of 12 items use the Student Notes or print the Outline for each attendee.

Practical assignments

- This is an excellent really practical Assignment that will benefit students' families, churches, and Leadership Training immediately — BUT — you need to follow-up! People need help — **your help**. Expectation does not get the job done; it is accountability and **follow-up** that makes both your people *and you* spiritually successful. Do it!!! Make your next workshop a celebration of improvements and successes.
