

# BLACKBOARD CONFIDENCE

## *Leader's Guide:* PD27-3

Lecture time: 14 min.

### **Lecture handling instructions**

- Lecture PD27 is a lighthearted oral presentation that you must prepare yourself. Be sure you have done it several times yourself. Then practice several times drawing large scale on a whiteboard.
- It will keep interest and keep the lecture lighthearted if you, the lecturer, illustrated and drew each shape as you mention it in the lecture. (It would also illustrate the point in the Conclusion.)
- Provide lots of paper and assign the shapes to be drawn during the meeting in place of the discussion time. Make sure the men and women draw the 10 shapes very large (on 2 sheets) and then down to very small. Varying the sizes is important.
- After the lecture have each person come forward and draw several samples on the whiteboard. Some may wish to add humorous additions, alterations, etc. This will show other attendees the practicality of 'toying' with these designs.

### **Leader's Oral Opening Comments**

- Well, let us have some fun. Learning can be really fun, let me demonstrate what I mean.

### **Leader's Oral Closing Comments**

- Now it is time for you to do better than I have done. You already discovered that I am not an artist. So, let us see your expertise or caricatures.

### **Prayer instructions**

- Have a few pray "Lord, through my weak inaccurate drawings I am freshly amazed at the accuracy of your beauty in creation. Thank You, praise Your Name!"

### **Pass-out material instructions**

- Provide lots of 'old / used' paper for practice drawing.
- Pass out the Photocopy booklet of samples to each person.

### **Practical assignments**

- The practical assignment is to draw the caricature figures from each shape at home.
- These should be very large — like 4 per sheet is too small.
- The reason for this is that 'large blackboard/white board' competence is what we are looking for.

### **Special adaptations for unique groups**

Train all your children's workers

### **Supplemental materials** PD27-7SM

- A booklet of sample shapes has been provided for you and may be shared with students.
