Leader's Oral Opening Comments

- Finally here it is; the time saver that you have always been looking for. Join the other thousands of successful time managers.

Leader's Oral Closing Comments

- Skeptical? ? Then don't try it! ! Continue sweating things out the way you are doing now, be overworked, have your wife suffer. The alternative is to joyfully try it and let the results include a few disasters. God is in control of disasters also, so you can't lose. ☺

Prayer instructions

- Go over this lecture and produce your own prayer notes specifically for this occasion, for these men.

Pass-out material instructions

- Use the TB3-6DM materials — Use an extra screen to display the posters; or print up large posters and display; or print up in color and pass out to individuals. This is important if you want to motivate and communicate.

Practical assignments

- This is a fun assignment — it ought to be?
- Everyone will be happy to get short, concrete, accurate instructions or suggestions and not waste time.
- It is the Seminar Leader's assignment to make it that way. Have your men rub their hand in gleeful anticipation.
